The Human Proteomics Program at the University of Wisconsin-Madison and the BioPharmaceutical Technology Center Institute are pleased to offer this excellent program. Attendees can expect to hear about cutting-edge proteomics technology developments and proteomics applications in cardiovascular diseases, cancer and neurodegenerative diseases.

Featuring:

Honorary Symposium Chair: *Richard Moss, Ph.D., University of Wisconsin-Madison*

Keynote Speaker: *Richard D. Smith, Ph.D., Pacific Northwest National Laboratory*

Session Chairs:

Session 1: Proteomics Technologies

Michael R. Sussman, Ph.D. University of Wisconsin-Madison

Session 2: Proteomics Applications in Cardiovascular Diseases

Marion Greaser, Ph.D., University of Wisconsin-Madison

Session 3: Proteomics Application in Neurodegenerative Disease

Martha M. Vestling, Ph.D., University of Wisconsin-Madison

Session 4: Proteomics Application in Cancer

William F. Dove, Ph.D., University of Wisconsin-Madison
